Gwinnett Sexual Assault Center & Children's Advocacy Center (GSAC-CAC) is a safe and friendly facility located in historic Duluth. GSAC-CAC embarks upon its 21st year in service to Gwinnett County and has reached over 70,000 individuals with direct services and programs for child and adult victims of sexual assault and abuse. The hallmark of success for GSAC-CAC as a non-profit 501 (c)(3) organization is it's participation in the successful orchestration and coordination of the Gwinnett County community SART or sexual assault response team. This concept of a multidisciplinary team approach clearly defines the roles and services of each professional discipline that has an impact on meeting the needs of sexual assault/ child sexual abuse survivors. This team response includes law enforcement, GSAC-CAC professionals, protective services, and input from the district attorney's office: all dedicated to ensure comprehensive, compassionate and high-quality services are provided.

No GSAC-CAC program is more noteworthy than its national model of on-site forensic-medical services. It is no longer necessary for child or adult victims to wait for long periods in overloaded hospital emergency department. This is the very crucial medical-legal examination of a sexual assault/ abuse victim and the collection of biological and other evidence obtained in the course of that examination. Exams are

completed at GSAC-CAC by a specially trained sexual assault nurse examiner known as a SANE, while the victim's emotional and psychological needs are supported by specially trained professional advocates. This hallmark service of GSAC-CAC is an important component as it meets the physical and medical considerations of the individual while providing an objective and independent assessment and documentation of injury and potential evidence.

GSAC-CAC is currently accepting applications for registered nurses with at least two years experience to participate in our Sexual Assault Nurse Examiner Program.
